

13TH October 2016

Afternoon Tea with Smiles Global and learn@AP

A TALK ON MANAGING INSURANCE BUSINESS WITH RBC, SHORT TERM INSURANCE RESERVING AND ACTUARIAL EXAMS

"Human capital development is now seen as a key ingredient of success in the insurance business."

Smiles Global, an integrated training & consultancy firm based in Colombo in collaboration with learn@AP, the largest provider of professional actuarial education and training services in South East Asia, invite you to our maiden event, which will be a showcase of our management and technical actuarial courses, with a focus on the business environment under RBC.

In addition there will also be an actuarial exams study talk which is aimed at supporting and encouraging actuarial students aspiring to be fellow actuaries, as well as an opportunity to share experiences from a past student who is now a current examiner.

SPEAKER

NICHOLAS YEO
FIA, FASM, FSA
CHIEF, learn@AP

Nicholas Yeo is the Chief of learn@AP. He strives to create a learning experience that contributes to our clients' success. He is an actuary with exceptional business acumen and a global perspective. His clients benefit from his strong grasp of strategic, operational and risk management aspects of the business. Nicholas holds himself to very high standards and always delivers excellent performance.

Prior to this, Nicholas was the marketing actuary of a multinational reinsurance company in Bermuda with global responsibilities for marketing and pricing structured reinsurance solutions. He also worked as a regional actuary with business development and client training responsibilities for a large reinsurance company in the South East Asian market. Nicholas started his career with Actuarial Partners, where he learnt the ropes working on mergers and acquisitions, market feasibility studies and takaful projects, in addition to traditional actuarial work such as pricing, reserving, financial projections and capital modelling.

Nicholas is a past Chairperson of the Professional Development Committee and Events Committee of the Actuarial Society of Malaysia. He is also very active in the field of actuarial education and is a consultant to the actuarial science program in a university.

Nicholas has delivered actuarial training to a State pension funds and has experience leading a Human Capital Development project.
